

100 Trees for 100 Years

Simmons Oak Farms
WHOLESALE NURSERY

Organization requesting trees: _____

Organization mailing address: _____

Contact person: _____

Telephone: _____

Email: _____

Number of trees requested: _____

Proposed planting location: _____

Proposed planting date: _____

Please briefly describe plans for installation and care of trees once planted. (Include the size of the property)

It is of great importance to Simmons Oak Farms that the recipients do what they can to ensure the trees have the best chance of survival. If your request is approved, we ask for your organization's commitment to take care of the trees and ensure their survival to the best of your ability. You will be expected to plant the trees using accepted planting procedures or have a professional install them for you. Additionally, you will be expected to provide automatic irrigation to each tree or to prove that you have both the manpower and dedication to manually irrigate each tree adequately. These trees are to be planted during the month of February, All Valley Arbor Month. Please provide Simmons Oak Farms with photos during and after installation of your trees.

I am aware of the responsibilities required of Simmons Oak Farms tree recipients and agree to comply with the terms of the award.

Signature: _____

Date: _____
